Roasted Coffee Beans Offerings | Q3 2026

At Oth Roastery, we curate coffees with intention. Each lot is hand-selected from producers who share our belief in precision, transparency, and craft. From high-altitude micro-farms to pioneering experimental projects, our offerings reflect the best of what each origin can achieve.

B2B Sales: info@oth.am +374 98 325653

We approach roasting with a minimalist philosophy: **highlight, don't hide**. By applying clean, controlled profiles, we allow every coffee's natural character — its sweetness, structure, and terroir — to come forward exactly as the producer intended.

Our B2B prices are significantly lower than our retail prices, giving our partners a strong competitive advantage. You can either match the pricing on the Oth Roastery website (recommended) or set a higher retail price in your own B2C channels. At Oth Roastery, we carefully select seasonal coffees and roast them with precision to highlight the character of each origin in order to express its own flavour profile and story.
